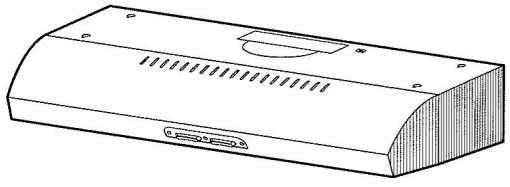
BROAN®

SPECIFICATION SHEET

EVOLUTION™ 1 RANGE HOOD QP142 SERIES



Meeting customer demands for a contemporary styled range hood that is easy to clean, and brightly lights the cooktop.

FEATURES

- Clean, sleek appearance
- Durable, powder-coat paint or brushed stainless steel
- Non-stick bottom pan for easy cleaning
- Large, full filter design, with antimicrobial coating that inhibits the formation of odor-producing bacteria and protects filter from discoloration - dishwasher-safe for easy cleaning
- 2-level blower speed control: normal / high
- Four halogen lights provide focused lighting for unmatched cooktop visibility (lamps not included)
- Centrifugal blower provides increased performance and quieter operation.
- Versatile design allows for 3¼" x 10", 7" round, or non-ducted discharges without re-positioning blower
- Adjustable duct connectors - accommodate off-center ductwork
- CleanSense™ charcoal filters indicate when replacement is necessary (for non-ducted installations - purchase separately)
- 42" width in White, Black, and Stainless Steel
- Tri-lingual carton graphics and installation manual (English/ French/Spanish)
- For indoor use only

Halogen Flood Light	35W, MR16 with GU10 base †
Charcoal Filter	BPPF42 ‡

† 4 bulbs req. (not included).
‡ Purchase separately for non-ducted installation.

TYPICAL SPECIFICATION

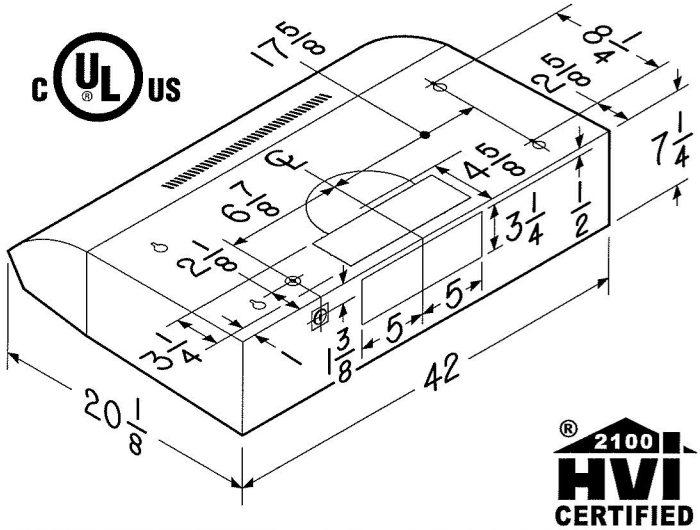
Range hood shall be Broan QP142 Evolution Series.

Unit will have clean, contoured appearance with no sharp edges. Finish to be baked-on powder-coat paint or brushed stainless steel. It must have a fully-enclosed bottom and dishwasher-safe, full filters.

Hood to be convertible between 3¼" x 10" and 7" round ducted (using three washable aluminum filters) as well as non-ducted (using three CleanSense™ filters - must be purchased separately). Duct connectors must be adjustable to accommodate off-center ductwork.

Range hood to have a centrifugal blower and four, 35-watt (max.) halogen flood lights. Blower and lights shall be operated using a specially-designed, 2 level rocker control.

Air delivery shall be no less than 100 cfm (normal) or 300 cfm (high) and sound level no greater than 0.8 Sones (normal) or 5.0 Sones (high). Air and sound ratings to be certified by HVI. Unit shall be U.L. and CU.L. listed.



HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 in. static pressure, based on tests conducted in a state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.
